[SLIDING AND STACKER DOORS]

enhanced living

Frame your view perfectly with the bold, clean lines of sliding and stacker doors.

Sliding and stacker doors are available in most aesthetic styles, configurations and colours to suit any design application.

With a wide range of stacking configurations the stacker door is suitable for most design applications.

Sliding and stacker doors allow an extension of indoor and outdoor living areas.

Capeview
windows & doors

Features & benefits

- Aluminium framed safety, insect and security screens
- Accessibility sill (wheelchair access)
- Energy efficient/high performance system options
- Glass options – suitable for 13.76mm laminated glass and double glazing options

High Performance Solutions

A Solar Comfort™ system is the perfect choice for keeping comfortable temperatures all year round, despite the outside extremes. Spend less on heating and cooling your home and help the environment.

A Solar Block™ system is ideally suited to locations where keeping out the heat, glare and damaging UV rays are a priority, without affecting your view.

Sound Smart™ is a system that reduces external noise. By simply installing the right window and door system, you can 'turn down' the sound to far more comfortable levels.

The Solar Secure™ system is approximately 20 times harder to break through than ordinary glass, making it an ideal invisible and economical home security barrier.

Solar Sound n Secure™ offers comfort, safety and acoustic high performance in one window. Ideal for residential, high rise and commercial applications.

Note : Products may be subject to local variation or climate requirements .
